FINAL ACTION

Applicant's amendment of 3-9-09 has been considered. The amended claims have overcome the previous rejections of 112/1st and 2nd paragraphs, items (a), (b), (d)-(f). However, claim 67 is still a “use” claim, and thus, said rejection is maintained along with the previous rejection of 112/2nd paragraph, item (c).

Claims 1-44, 53-55, 62, 65 and 68 are cancelled.

Claims 69-73 are held withdrawn as per previous office action.

Claims 45-52, 56-61, 63, 64, 66 and 67 are pending.

Claim Rejections - 35 USC § 112, Second Paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 45-52, 56-61, 63, 64, 66 and 67 remain rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

a. Claim 45 recites “...compounds...and the pharmaceutically acceptable salts thereof”;

Claim 60 recites “...compounds...and the pharmaceutically acceptable salts thereof”;

The word “**and**” suggests a mixture of the compound and its salts. Applicant is suggested to change from “and” to “or”.

b. Claim 60 lacks antecedent basis because it depends on claim 45, but recites species that are not in the genus of formula I.1. For example, page 13, the 4th and 8th compounds (which have U as a pyridinyl ring) are outside the scope of formula I.1. Also page 15, the first compound (which has V as a pyridine ring) is outside the scope of formula I.1.

c. **Use claim:** Claim 67 provides for the use of a carboxamide compound, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Use Claim: Claim 67 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for

example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
